

WPR-IR Pendant Location Transmitter

The WPR-IR is a wireless infrared transmitter that provides location information to a WPT-IR pendant. This location information (with the user data) is sent by the WPT-IR pendant to the main monitoring/paging system. The WPR-IR unit is designed for ceiling or wall mounting.

- **Wireless Infrared Communications**
- **Designed for ceiling or wall installations**
- **Covers up 2000 SF**
- **Compact and easy to install**
- **Operates from 12V DC or AC power source**

Specifications:

Dimensions:	4.25" diameter x 2.25" high	Color:	Red
Weight:	0.6 lb.	Transmit Range:	25' radius (up to 2000 SF)
Power:	90-240VAC, 50/60Hz 30-Watt 12V / 3A Power Adaptor	Data Rate:	10PPM
Operating Temperature:	32° to 120°F	Channel spacing:	+/- 100KHz
Humidity:	0%-95% Non-condensing	Paging addresses:	Up to 99
Packaging:	Weatherproof polycarbonate for indoor and outdoor applications	Limited Warranty	One-year Parts and Labor
