

WPT-I214 Wireless Four-Button Pendant Transmitter

The WPT-I214 is a four-button 900Mhz pendant transmitter, that is designed for neck or belt mounting. Each of the WPT-I214 buttons can be programmed to send a unique code to a PageLink paging encoder, that as a result will send a detailed preprogrammed alphanumeric message to a specific pager or LED display.

- **Fully programmable messages**
- **Long range up to 1000'**
- **Transmit four distinct alerts**
- **Low battery alert**
- **Long-life single battery**
- **Includes neck cord and belt clip**
- **Works in the 900MHz band**
- **Supervision option**

Specifications:

Dimensions:	3.0"W x 1.6"H x 0.72"D	Signalling Time:	1-4 seconds
Weight:	1.7 oz.	Stability:	Better than 5PPM
Power:	Single 3V Lithium battery	Frequency:	902-928MHz
Operating Temperature:	32° to 140°F	Paging format:	Multi-Channel Spread Spectrum
Humidity:	0%-90% Non-condensing	Channel spacing	100KHz
RF Power:	10mW	Paging addresses:	Up to Four Device ID's
Programming:	PC based programming kit	Color:	Black
		Limited Warranty	One-year Parts and Labor
